Street Tax Collections—Clean-Up Orders Issued—City Park—Public Building Inspection.

The Council met in regular session yesterday evening. Mayor Butler presiding and alldiffers present except Alderman Brandon.

Steps were taken to enforce collections of unpaid fines. Walter Downard was employed to collect street tax of \$3.00 per capita for 1908.

The sum of \$150.00 was appropriated to the Carnegie library to purchase periodicals and books.

At the suggestion of the mayor the street commissioner was instructed to take the street hands and give the town a thorough cleaning, property owners to be required to clean up their premises and put the rubbish out to be hauled off. The matter of conducting the clean-up campaign was placed in the hands of the street committee. This work will begin Monday and continue until the town is covered.

C. E. Jenkins and J. W. Hamilton appeared before the council as a committee from the fire department recommending that some steps be taken to make the opera house more safe in the event of fire. Jenkins

expressed the opinion that the school buildings are well provided with exits and safe. Alderman W. E. Saunders and J. W. Batts were appointed a committee from the council to go with the committee from the fire company, make an examination of all public buildings and report at next meeting of the council.

Mr. Jenkins was instructed to ascertain cost of a new steam fire engine, and how much would be allowed on the old steamer in the event of a purchase.

Mayor Butler submitted plans of Mr. A. B. Carson, drawn for the Daughters of the Confederacy, for the new park near the H. & T. C. depot, the city to supply coping, grade the inside and put in gravel walks. Referred to Mayor Butler and Alderman Batts to get an estimate and with power to act.

H. & T. C. will probably cooperate in the work or put in small parks of their own at the ends of the depot. The plaza near the fire bell tower will also be cleared and cleaned up.

Officers' salaries for the ensuing year were fixed as now prevailing. Mayor, \$100 per year; aldermen \$3.00 for regular meetings and \$2.00 for called meetings.

Big Fleet at Magdalena Bay

Washington, D. C., March 13.—The arrival of Admiral Evans fleet at Magdalena Bay means that the long trip from Hampton Roads is virtually ended. Of the total of 14,000 miles only about 1,000 miles remain to be traversed between Magdalena Bay and San Francisco, the objective point. The trip from Callao, the last stopping place, to Magdalena Bay is 3,102 nautical miles and forms the longest leg of the entire journey. The fleet will reach Magdalena Bay just three months and two days out from Hampton Roads.

The fleet will put in about three weeks in target practice, practice in which it is expected there will be great rivalry between the Atlantic and Pacific fleets, the latter having also been ordered to rendezvous at the bay.

This will be a convincing demonstration that after more than 12,000 miles of cruising from the Atlantic coast the fleet has arrived on the Pacific in a high state of efficiency. Before firing is started, however, it will be necessary to lay out the ranges, which will require one or two days. The target practice will be unusually extensive, including battle practice with a rough sea and record practice in smooth water.

Plans for the run from Magdalena

Bay to San Francisco have been worked out in connection with arrangements to receive the fleet at San Francisco, which arrangements have been prepared tentatively by Secretary McCall after several conferences with Governor Gillette of California.

After the target practice is completed at Magdalena Bay the combined fleets will head northward and on the way will engage in many drills and maneuvers. The practice will include a division into two fleets, each containing eight battleships, eight cruisers and a small torpedo flotilla, destroyers, repair ships, supply ships, etc. These will be pitted against each other, and will work out the complex problems which have been devised by the general board, as well as others which may be suggested by the flag officers of the fleet. Again, a division will be made into four fleets, each headed by four battleships, and still other problems will be solved. Great benefit is expected from work on so elaborate a scale. It is a noteworthy feature of the programme that all this will be done without resorting to a navy yard, there being none in the vicinity, and any repairs which may be necessary will have to be made by the repair ships that accompany the fleet and in the machine shops on board the ships themselves.

COTTON MEN TO MEET

Boston, Mass., March 13.—Elaborate preparations are being made for the annual meeting of the National Association of Cotton Manufacturers, which is to be held next month at the Massachusetts Institute of Technology. It will be the eighty-fourth annual meeting of the association the membership of which embraces the prominent manufacturers of the South as well as those of the New England territory.

The programme, so far as it has been arranged, provides for the discussion of the following subject: "Cotton Mill Stocks as Investments," "Egyptian Cotton," "Arts of Weaving and Spinning," "Cotton Cultivation in West Africa," "Improvements in the Cotton Fibre from Storage of Seed Cotton," "Lubrication Tests in Cotton Mills," "Sea Island Cotton," "Steadying Power of Consolidation," "Steam Turbines," "Need and Advantages of a Cotton Exchange in New England," and "Yarn Testing."

Fish Lunches With President.

Washington, March 13.—Stuyvesant Fish, former president of the Illinois Central railroad, was a guest of the president at luncheon Thursday.

CABLE CHESS MATCH BEGINS

New York, March 13.—The usual lively interest was manifested by chess players today in the opening of the international match by cable, America vs. Great Britain, for the Sir George Newnes trophy. The American end of the match is conducted by the Brooklyn Chess Club, while nearly 3,500 miles distant the British end of the contest is in charge of the City of London Chess Club. The match is conducted on eight boards and the quarters of the two chess organizations are connected by cable and telegraph. If the match is unfinished tonight the play will be resumed tomorrow morning and continued until 6:30 p. m., when any uncompleted games will be adjudicated by the judges agreed upon for the purpose.

Solid For Taft.

Omaha, March 13.—Without a voice of dissent the candidacy of Hon. W. H. Taft for president of the United States was endorsed by the Republican state convention of Nebraska on Thursday, and a solid delegation for the secretary will go to Chicago instructed for his nomination first, last and all the time. It was a Taft convention from start to finish.

The Daily Eagle

Entered at the Postoffice in Bryan, Texas, as second class matter.

BY CARNES & WALLACE

ANNOUNCEMENTS.

The Eagle is authorized to announce the following candidates for the offices indicated subject to the Democratic Primaries:

For Congress Sixth District:

RUFUS HARDY (Re-election).

BRYAN, TEXAS, MARCH 13, 1908.

It is now the open season for the pruning knife, the lawn mower and the garden rake.

The Harris County Commissioners' Court has let contracts for building roads amounting to \$100,000.

Governor Beckham shot some keen Parthian arrows at his betrayers as he retired from the field.

It is getting to be a serious question whether the woman was made for the hat or the hat for the woman.

Joe Leiter and Henry Watterson are of opinion that Roosevelt is crazy, but there seems to be method in his madness.

As between Carmack and Patterson, candidates for governor of Tennessee, the Eagle is for Carmack because he is red-headed.

The battleships dropped anchor in Magdalena bay on the western coast of the peninsula of Lower California for the semi-annual target practice.

The consensus of opinion among Texas congressmen is that the delegates to the national convention should not be office holders. The Eagle has favored this from the start.

There is lots of energy expended in a political campaign. Some say it is wasted, but is it? We think not. Elections stir people up, pull them out of the ruts and renovate their energies. The superiority of the American character is largely owing to the healthful stimulus of elections.

If the newspapers of the United States knew the true inwardness of the so-called "Yaki Outbreaks" they wouldn't give them so much free advertising. This Yaki business is simply one of several schemes of graft worked in our neighbor republic. A big bunch of practically idle men get a fat living out of it.

Less than a hundred years ago Boston Commons was a public cow pasture. Now it is one of the most beautiful parks in the world. Bryan has some unsightly features that might be turned into beauty spots.

It would be an excellent plan to make the split log drag an issue in county politics and to ask every candidate for a county office to define his position on it. It is of more practical importance than the Bailey question.

"Fewer laws and better laws," is the slogan of the commercial secretaries assembled at Ft. Worth. Texas has many good laws, some not so good and a few that are positively bad. The thirty-first legislature will be called on to revise the statute book and if the work is honestly and wisely done the new edition will be somewhat smaller than the one now in use. But the people should send men to the legislature who will not be influenced by the corporations to blue-pencil the best, especially those enacted in response to the Hog platform demands. It took a hard fight through several administrations to get these laws enacted and if the people are not careful they will yet be robbed of the fruits of their victory. It would be better to let the tares grow than to root up the wheat.

CANDIDATE FOR RE-NOMINATION.

Judge Rufus Hardy of Corsicana Again Places His Name Before Democratic Voters of the Sixth District.

Elsewhere in this issue will be found the announcement of Judge Rufus Hardy of Corsicana, who is again a candidate for the democratic nomination for congress, subject to the action of the July primaries of the party. He seeks re-election on the record he has made in representing the interests of his constituents in the initial term which he is now serving, which is an earnest of the good work he will be able to do if continued in their service.

Judge Hardy is well known to the people of Brazos county, having formerly resided at Millican, and having visited the county frequently and campaigned here in his last race. In his youth he studied law while at work on the farm and in other occupations, his law tutor being Judge J. D. Thomas.

Upon his removal to Corsicana Judge Hardy took rank early with the leading men of that city and was called to serve in many positions of trust and responsibility, serving as district attorney and later as district judge. He has ever been successful in his own business affairs, and is

a man of sound judgment and indomitable energy. He has also the courage of his convictions and never is found occupying a neutral position on matters pertaining to the public welfare. His voice is raised fearlessly and without regard to consequences in the defense of what he believes to be right.

Since his nomination for congressman from this district he has been particularly active in informing himself regarding matters of legislation of most importance to the district he represents and to this state. Water and railway transportation, drainage, soils, forestry protection and other matters have received his attention. He made a waterway trip on the Mississippi last year with a party of congressmen and gathered information regarding water and railway transportation competition that has been the subject of a measure offered by him in congress. He has written a number of letters to the press in his district since going to Washington, and will make as extensive a personal campaign for re-election as opportunity will allow.

DR. BRUMBY PLEASED.

Texas Will Be One of Cleanest States, He Says.

Austin, March 13.—According to State Health Officer Brumby, who has returned from a tour of inspection of points in north Texas, this state will soon be one of the cleanest commonwealths in the Union from the sanitary point of view. He was at Dallas, Fort Worth, Sherman and other places to see how the cleaning up campaign he inaugurated was progressing, and as a result he announced that his highest hopes are being realized. Cities are taking up the matter vigorously and pushing it to a successful end. He also said that various counties infected with smallpox had the disease under control.

HOLLIS' DREADFUL DREAM

Raises Up In Bed, Kills Wife and Continues Slumber.

Washington, March 13.—Hugh Hollis, a treasury department clerk, who came here from Louisville, Ky., and served for a time as private secretary to Commissioner of Internal Revenue Yerkes, shot and killed his wife at their home on Newton street in the northwestern section of the city. About 3 o'clock Friday morning his wife arose to attend their child and as she returned to the bedside, Hollis awakened pulled his revolver from beneath his pillow and fired, instantly killing the woman. Immediately he went to sleep again and knew nothing of the shooting until awakened. He declares he was dreaming of burglars.

Torpedoboot Is Sunk.

Cuxhaven, Germany, March 13.—The German torpedoboot S-12 was run aground and sunk by an unknown steamer at the mouth of the Elbe river. The chief engineer of the torpedoboot was drowned, but the remainder of the crew rescued.

WEBB BROS.

FIVE HUNDRED POISONED.

Some Stores Closed Because All Clerks Were Sick.

Upper Sandusky, O., March 13.—Five hundred people were poisoned here Thursday night at a social given by the ladies of the English Lutheran church by eating chickens and waffles. Many people were not taken ill until after they had gone home and by midnight all the doctors in the city were busy. Friday some stores could not be opened because all of the clerks were unable to appear. There have been no deaths.

FAVORED BY LODGE.

Addresses Senate In Advocacy of Aldrich Bill.

Washington, March 13.—Senator Lodge of Massachusetts endorsed the pending currency bill in the senate, and declared it would be serviceable as an emergency measure, and would not prevent the enactment of a general currency law which, he declared, he hoped to see realized in the future on the basis of a central bank.

Senator Paynter of Kentucky opposed the currency bill in a short speech, and especially condemned the proposition to insure bank deposits.

Referring to Senator Depew's recent remarks about "night riders" and barn-burning in Kentucky, both Senators Paynter and McCreary of that state condemned such lawlessness and denounced the tobacco trust.

SCORES PRESIDENT.

Says That He Is Feared Because of the "Big Stick."

Washington, March 13.—Representative Willett of New York, in the house Friday heaped denunciation upon President Roosevelt. He referred to the distressing effects of the panic, which are still felt, and said Republican members are silent on the question because of fear of the president's "big stick." He declared the "imperialistic methods" of the president are evidenced by the unamerican discharge of whole companies of American soldiers without trial and without proof of guilt.

He charged the president had done more than all other presidents and public men to shake the confidence of the people in our form of government, and in conclusion said: "To remove the cause of unrest, silence the ceaseless, senseless clamor for spectacular effect on the part of the man in the white house and quiet will be restored."

ESCAPED BY STRATEGY.

Another Prisoner Answered to Name Called and Walked Along Free.

Chicago, March 13.—When the name of Louis Larsen was called in the county jail for release, one of the prisoners appeared at the desk and after a few perfunctory questions was allowed to walk out of the front door. An hour later the real Louis Larsen appeared and demanded his release. Then the mistake was discovered.

The prisoner who escaped was Anthony Sweeney, awaiting trial for larceny. Larsen was held because Jailer Davies believed he was a party to the deception.

Ed Martin and Henry Locke have returned from Dallas where they purchased a handsome marble soda fountain with plate glass show cases and marble base for their new store. They expect to be ready for business by April 1, with a swell lot of fixtures and handsome stock.

The prospects for securing the new city park seem to be quite favorable, and the Eagle believes it will be realized. The ladies of L. S. Ross Chapter U. D. C. held a meeting at Carnegie hall yesterday afternoon, Mayor Butler being present, and the plans as outlined in the Eagle yesterday morning were gone over, and a plat turned over to the mayor for submission to the city council, showing the work desired. As will be seen elsewhere the action of the council in the matter, while not final, points to the success of the movement.

NOTES FROM THE LABOR WORLD.

The Minnesota State Federation of Labor has decided to take an active part in State and Municipal politics this year.

More than fifty labor unions in Massachusetts have recently passed resolutions in favor of woman suffrage.

Among the organized women workers in Germany, nearly fifteen thousand are engaged in the metal trades.

Union farmers of Florida will this year place the union label on the crates of fruit and vegetables shipped to Northern markets. Several thousand union farmers in Indiana are likewise using the union label on their products.

LIBERTY LEAGUE FORMED

Its Mission Is Declared to Be
Checking Of

PROHIBITION MOVEMENT.

Names of Its Officers Are Declared to Be Guarded With Great Care, and in Illinois the Membership Is Placed at Two Hundred Thousand.

Chicago, March 13.—The Liberty league, organized and backed by the liquor interests, is in readiness to make a desperate effort to annihilate the Anti-Saloon league and turn back the prohibition wave sweeping over the south. The announcement was made of the completion of the organization of the league and the claim made for it that since October a general body has been organized in every state in the Union. Its membership in Illinois is said to include 200,000 men. The headquarters of the organization are at Chicago and sub-headquarters are maintained at New York, Atlanta, Louisville, St. Louis, Denver, Seattle, and San Francisco. The body is secret and the names of its officers are guarded with great care. The states are organized by local lodges or chapters in which the membership is oath-bound as to policies and methods of procedure.

It is the purpose of the Illinois league to hold a state convention in June or July to pass upon candidates for state offices and for the legislature prior to the district primaries on Aug. 8. Candidates will meet with favor in the direct proportion as they favor the platform. The league's platform, it is declared, is to resort to no subterfuge in stating its policies. It is in the open and has declared a fight on prohibition in state and nation, and if its plans are carried out it will take a strong part in the presidential campaign.

MOST IMPORTANT.

Hundred Unions to Be Represented at Conference.

New York, March 13.—What is declared to have been the most important conferences ever held by national labor leaders took place here. It was a meeting of the executive council of the American Federation of Labor.

Over 100 national and international unions, it is said, will be represented at a meeting called to be held at Washington Wednesday of next week. Planning of new tactics on account of many court decisions against unions is said to be the subject brought up for consideration.

General Organizer Herman Robinson of this city made this statement concerning the committee: "I expect the conference to be the most important in its results since the formation of the American Federation of Labor. Matters so important are to be discussed that President Gompers and the executive council want instructions from all unions before proceeding."

WHOLLY MEXICAN.

Village of That Nationality Springs Up at Magdalena Bay.

San Francisco, March 13.—A village, wholly Mexican, has sprung up at Magdalena bay and two Mexican government officials placed in charge. An English company has secured a lease on the shore fronting on the bay and has established an agency there. This company has the exclusive privilege of selling meat to the American warships. When the Perry, which has left Acapulco arrived here, she was in communication by wireless with the American fleet, then far down the coast.

Congratulations Cabled.

Washington, March 13.—The following congratulatory telegram signed by Secretary Metcalf was sent Rear Admiral Evans: "The navy department congratulates you and the men and officers of the Atlantic fleet on the termination of your voyage to the Pacific ocean in exact accordance with the itinerary, and also upon the efficiency of the ships and the time of the arrival at Magdalena bay."

The Perry Has Arrived.

San Francisco, March 13.—Torpedo boat destroyer Perry has arrived from Magdalena bay.

Furnaces Have Started.

Anaconda, Mont., March 13.—Reveratory furnaces have been started in the Washoe copper smelters of the Amalgamated Copper company and a blast furnace has been blown in and smelting of copper commenced. The Washoe copper smelters are said to be the largest in the world.

DISMISSED BY AGREEMENT.

Extensive Litigation Relative to Forty Miles of Streets Ends.

Waco, March 13.—After extensive litigation in district court, the suit for forfeiture of franchises on nearly forty miles of streets has been dismissed by agreement between the city council representatives and representatives of the Citizens' Street Railway company. The city agrees to allow the company to retain its franchises on about six miles of streets, the remainder to be forfeited. The suit arose on account of the failure of the railway people to utilize the franchises. The company will at once utilize the mileage left it by the agreement.

LARGEST COMMISSION.

Amarillo Man Receives Check For Forty-Five Thousand Dollars.

Fort Worth, March 13.—The largest commission ever paid in a land and cattle deal was given Fred Horsburg of Amarillo here Friday, when he received a check for \$45,000. Horsburg was formerly manager of the famous Spur ranch in Dickens county and several years ago sold a tract of land for an English company for \$2,500,000. The commission was long held up and a suit resulted, the case being transferred from Amarillo to the Federal court here.

PULLS TRIGGER WITH TOES.

Amos Campbell Uses Novel Method For Self Destruction.

Fort Worth, March 13.—Amos Campbell, aged forty, a farmer, was found dying on the gallery of his home near Springtown. A gun was laying by his side and there was a deep wound in his head, from which he died in a few minutes. He had told his wife he was going hunting. It is said he took off a shoe and pulled the trigger with his toes. He had had business troubles.

FLEET'S ITINERARY.

Visits Hawaii, Samoa and Australia. Returning by Suez Canal.

Washington, March 13.—Admiral Evans' fleet, after leaving San Francisco, will visit Hawaii, Samoa, Melbourne and Sydney, Australia, the Philippines and return to New York by way of the Suez canal.

Students Won Trophy.

Fort Worth, March 13.—A class of thirty boys from the agricultural and mechanical college held the arena at the Coliseum Friday, where the fat stock show is being held. In charge of Professor Burns, they judged steers. Five of these students won the silver trophies, offered the best student judging class, given by G. F. Swift.

Factory to Be Established.

Fort Worth, March 13.—Arrangements for establishing a \$500,000 cotton mill by the Texas Farmers' Union have been completed. The factory will be located near the Texas and Pacific railway tracks on the west side.

Won by Leedale Lad.

Fort Worth, March 13.—Leedale Lad, a two-year-old Hereford, owned by Lee Bros., San Angelo, weighing 1,580 pounds, won the grand champion ship for steers at the fat stock show.

Strike Sure to Come.

Denison, March 13.—Prominent coal operators of Oklahoma say a strike is sure to come. If strike breakers are introduced there will be serious trouble, they say.

Collarbone Broken.

Denison, March 13.—Mrs. Brazill, a prominent lady, was thrown from a buggy. Her collarbone was broken and internal injuries sustained.

Body Cut in Two.

Palestine, Tex., March 13.—A negro named Newkoak was cut in two by a train in the local railway yards.

At Austin April 6.

Austin, March 13.—Criminal court of appeals meets here April 6.

HAD ROUGH SAILING.

Bill Halted at Every Turn by Amendments and Warmly Discussed.

Washington, March 13.—The post-office appropriation bill had rough sailing in the house of representatives Thursday. Its progress was halted at every turn, upon which there were lengthy discussions. The attacks were begun on the section relating to the pneumatic tube service, which was forced to undergo a change so that extensions of such service should not be confined to the several cities named in the bill, but that they should be made wherever the postmaster general may think best. The house was a unit for withholding a portion of the pay for railroads for transportation of mails until a correct system of weighing was inaugurated.
